

SOHIL PRAJAPATI

PROFILE SUMMARY

Enthusiastic, detail-oriented BCA student with hands-on experience in front-end web development using HTML, CSS, and JavaScript. Passionate about building responsive and user-friendly websites, with completed projects in personal portfolio, e-commerce, and cleaning services domains. Currently learning Python to expand into full-stack development and AI. A quick learner with a strong interest in technology innovation, ethical hacking, and team collaboration. Eager to contribute to dynamic IT teams and grow into a versatile software developer.

PROJECTS

1. Cleaning Services Website

Built a web-based Cleaning Service platform using HTML, CSS, JavaScript, PHP, and MySQL. Users could book services like carpet and kitchen cleaning with Basic, Standard, and Premium plans.

2. Personal Portfolio Website - Interactive Portfolio Website.

Tech Used: Built using HTML, CSS, JavaScript.

- Showcased personal skills, projects, and achievements with an engaging UI.

3. Image Edit Tool – Simple Image Filter and Editor

Tech Used: HTML, CSS, JavaScript

- Developed a basic web-based image editing tool with features like brightness, contrast, grayscale, and filters.

4. Weather App – Real-time Weather Updates

Tech Used: HTML, CSS, JavaScript, OpenWeatherMap API

- Displays real-time weather data of any city using the OpenWeatherMap API.

5. Photography Website – Image Gallery & Booking (In Progress)

Tech Used: HTML, CSS, JavaScript, PHP, MySQL

- Currently building a photography portfolio website with image galleries, service sections, and contact forms.
